Diagram illustrating the derivation of the 23rd rule from the 22nd rule. The diagram shows a sequence of transformations between two sets of symbols. The top row shows a sequence of symbols: a square with an 'X', a circle with a dot, a triangle with a crown, a circle with a dot, a square, a circle with a dot, a square with an 'X', a circle with a dot, a square with a triangle, a circle with a dot, and a circle with a dot. The bottom row shows a sequence of symbols: a square with a triangle, a circle with a dot, a triangle with a crown, a circle with a dot, a heart, a triangle with a crown, a circle with a dot, a triangle, a circle with a dot, a circle with a dot, a heart, a circle with a dot, a circle with a dot, a circle with a dot, and a circle with a dot. Arrows indicate the transformation from the top row to the bottom row.

The diagram illustrates a process flow: a box containing a dot has an arrow pointing to an open book icon, which in turn has an arrow pointing to a graph icon.

The diagram illustrates the transformation of a box with a dot and an arrow into a book icon, and then into a graph structure. The first part shows a box with a dot inside and an arrow pointing right, with an upward arrow above it. The second part shows a book icon with a small square inside. The third part shows a graph structure with two vertical lines and a series of circles connected by arcs.

Diagram illustrating the derivation of the 41st theorem from the 40th theorem. The diagram shows a sequence of transformations of a complex geometric figure, which is a square with internal lines and a central circle. The transformations are labeled with numbers 1 through 41, indicating the steps in the derivation.
