

FACILITATOR INSTRUCTIONS

These instructions are used to teach the Home Sign Lesson PowerPoint

Step 1: Gather the materials.

- Character & Extension Cards for the lesson
- Sentence Cards for the lesson (these can be found within the Home Sign Lesson PowerPoint)
- Side Kit

Step 2: Take out the character and extension cards for the first lesson in the Home Sign Lesson PowerPoint. Show the first character. Turn the character card over to show student the illustration.

Step 3: Communicate to the student what the word is. Check for understanding from the student.

Step 4: If the student shows understanding, move on to the next word and repeat steps 2-3. If the student shows confusion, use other methods to clarify the meaning such as drawing, acting it out, using objects around you, etc.

Step 5: After every 5 words, do a review. Do not go on to the next set of words until the student has mastered the first set.

Step 6: When finished with all of the words, show the sentence card(s) for that lesson to the student and have student communicate each sentence to you.

Step 7: If student is confused on a sentence's meaning, check for understanding of each word and reteach the word that is causing confusion.

Step 8: When finished with all the sentences, congratulate the student on completing the lesson!

Step 9: Begin the next lesson. Following steps 2 – 8 above.

Notes:

- Some words will have a *# beside them. If you see a *#, refer to the Side Kit Instructions Manual.
- If the student demonstrates a good grasp on the characters and sentences, have the student make his own sentences as an enrichment activity before moving on to the next lesson.
