Diagrammatic equation (1) shows the reduction of a product of two 1-vertex terms to a sum of three 2-vertex terms. The left side consists of a red '1' followed by a crossing of two lines, a 1-vertex with an incoming arrow and a loop, a crown, a 1-vertex with an incoming arrow and a loop, and an arrow pointing to the right. The right side consists of a 2-vertex with an incoming arrow and a loop, a crown, a crown on a square, a triangle with an incoming arrow, and three diagrams of a 2-vertex with two incoming arrows and a loop.
